The Democrats who confidently looked for a ringing declaration of old-fashioned Democratic principles are wofully disappointed, and the whole country is more or less disgusted.

Mister Parker's apeech is a evasion He dodges the money question, thereby demonstrating that he has been cowed and reduced to submission by the Bryan contingent. If Wall street distated his famous gold standard telegram, who shall say that Bryan did

mot dictate the financial feature of his speech of acceptance? Mister Parker's speech is a mass of Mister Parker's speech is a mass of milk-and-water statements of more or less doubtful veracity. It is rescued from absolute mediocrity by the gratitions declaration that he will not seek a second term. This is commendable in Mister Parker, but it is not such a terribly transcendent virtue on the part of a man who has but vain hones of getting one term. hopes of getting one term.

A PROHIBITION COMBINE.

For months past the Democrats of Fayette, Greene and Somerset counties have been out with their little lan-terns hunting for a candidate for Con-gress. They have had a long and terribly hard scarch, but some sharpsighted and far-seeing member of the party with a little belier lantern than those of his brethren, either by accident or design, discovered the Hon. William Henry Ruppel of Somerset, law partner of General Andrew Hotstuff Coffroth, who, full of years and honors but fuller of Democracy, no matter the character if it be the name, her writed from active requires.

has retired from active politics.

The Hon. William Henry Ruppel is a nice man. His Sunday School record is beyond reproach. He is a Prohibi-tionist with Democratic leanings, and there's the rub. All the professions there's the rub. All the professions and all the practises of the Democratic party from time out of mind have been diametrically opposed to the very idea of Prohibition. The national platforms of the Democratic party time out of mind have declared emphatically against all forms of sumptuary legislation, and in favor of the largest freedom for the individual. But since the party has become Ervanized, it seems party has become Bryanized, it seems to be willing to declare for anything that will promise to bring votes to the support of its ticket. An insane de-sire to get into office once more has caused the party to abandon all its traditions and become an emasculated and harmless factor in the life of the

The Hon. William Henry Ruppel will be nominated for Congress by the Democrats of this district, not because he is a Democrat, but because they

expect he will get the Prohibition vote. Perhaps he will, but he will need a great many more votes to elect him to

STEALING.

A Dunbar man was sentenced to jail for sixty days for the crime of lar-ceny by bailee. He took some rings to look at and refused to bring them The law defines and punishes several grades of theft, but there are some thieves who escape punishment though their crimes are morally as great as any other form of theft. The country is full of "beats," men

who buy goods never intending to pay for them, and who never do. This is only another form of stealing, but the law in its complaisance does not so regard it. To avoid the possibility of punishing one innocent unfortunate, the ninety-and-nine guilty go free. Tis true, 'tls plty; and plty 'tis,

'tls true." If the Hon. William Henry Ruppe gets to Congress will be be a Dem ocrat or a Prohibitionist?

This? first week of August surprised us in the number of people that attended the sale and the amount of goods sold. One statement we want to repeat and that is that the quantities are limited to the stock on hand and in most cases this quantity is small. That is the reason and the main reason for these small prices. It's a hint to you not to delay too long in the coming.
